

Jeanne Gollhofer, Kathy Schwab, Peg Moertl
City advocates, involved citizens and informed community leaders.

Dear Friends,

Regardless of your professional affiliation, as a resident in this city, you understand how important effective and visionary leadership is to our future.

We have all lived through “single issue” leaders, who lack vision and passion for any issue outside of their singular special interest.

We have lived through divisiveness and pettiness in our leadership.

We have lived through “carpet baggers” who come to Cincinnati as a stop on a path to somewhere else, and make every decision based upon how it will affect their career, not our beloved City.

Kathy, Peg and I have decided to support Joan Kaup for Council because she has chosen to get involved in politics for all the right reasons. Joan is a successful and respected business person, who has decided to make what I consider to be quite a sacrifice because she loves this City and because she cares. She has a tremendous understanding of Arts and Culture as economic development; how to maximize the tax base by building on assets to stimulate economic growth rather than using limited resources to simply manage the city’s liabilities.

Thank you for giving Joan your financial support in the campaign and your vote on November 6th.

Sincerely

Jeanne, Kathy, Peg
